

2022 RSNA/AAPM GRADUATE FELLOWSHIP

Starting this year, the Fellowship awards program has been restructured from its original single award mechanism to four PhD Awards and three MS awards each of \$10,000. Additionally, one of the MS and PhD awards will be reserved for under-represented applicants (see details below).

Four PhD Awards of \$10,000 each

Two awards will be for incoming PhD Students; Two awards will be for ongoing PhD Students.

- Paid to institution which in turn transfers it to student. Money can be used for tuition, professional and research development

Three MS Awards of \$10,000 each

- Paid to institution which in turn transfers it to student. Money can be used for tuition, professional and research development

Sponsored by the [AAPM Education and Research Fund](#).

A list of Award Recipients can be found [here](#).

Each applicant must be a graduate of an undergraduate program in physics or equivalent majors (e.g., engineering-physics, physics, math-physics, or nuclear engineering or applied physics) from an accredited university or college in North America. The undergraduate grade point average must be greater than 3.5 (based on a 4.0). Each applicant must have submitted an application for graduate study to one of the accredited programs with subsequent acceptance. Applicants must be a member of AAPM at the time of application (any membership category). Pending membership status not eligible.

Required Supporting Documentation:

- All post-secondary study transcripts (official transcripts only)
- Copy of Graduate Record Exam results (If applicable)
- TWO Recommendation Forms and TWO Reference letters
- A (<300 word) statement of how funds are to be used, and how the funds will benefit your graduate study or career should you receive the award

- Acceptance letter from intended CAMPEP Accredited Program
- CV including GPAs and publications (use CV Template)

The application includes a check box for under-represented applicants. *The following racial and ethnic groups have been shown to be under-represented in biomedical research science and engineering: African Americans, Latino Americans, Native Americans and Asian Pacific Islanders.*

Merge all files into one PDF and upload the complete application (PDF).

Send supporting documentation to:

American Association of Physicists in Medicine
